

Javier Márquez

Senior Backend Developer - Expertise

Email: info@javiiscript.com **LinkedIn:** <https://www.linkedin.com/in/javier-marquez-46ab25367/>

GitHub: <https://github.com/JaviiScript> **Website:** <https://javiiscript.com/en/backend-developer>

Senior backend developer with 10+ years of experience in PHP/Laravel and C#/.NET development. Specialized in APIs, financial integrations, async processing, and event-driven architectures.

EXPERIENCE

Esfera Médica - Senior Backend Developer

2023-01-01 - Present

Maintenance and continuous evolution of the backend of a 4-microservice ecosystem that I designed and implemented previously as an employee. New integrations, business modules and optimization of existing flows.

Evently - Backend Developer

2025-01-01 - 2025-03-01

Complete backend design and implementation of a SaaS platform for digital invitations. Concept to production in ~6 weeks: domain modeling, API, service layer, testing and CI/CD.

Open Source - Author and Maintainer

2024-01-01 - Present

Open-source Composer package extending Laravel Nova through a custom macro. Demonstrates ability to design public APIs with low adoption friction and maintainable code across versions.

Fundación Lazos - Senior Backend Developer

2023-01-01 - 2025-01-01

Designed and developed from scratch the complete backend of a cloud-based CRM that replaced a legacy system. ~115 tables, ~120 Eloquent models, REST API, CFDI invoicing, direct debit with 3 payment processors and event-driven architecture.

DR México - Backend Software Engineer

2023-01-01 - 2024-01-01

Takeover of the backend of multiple mission-critical systems for government entities after massive team resignation. Stabilization, diagnosis and maintenance of 10+ projects with heterogeneous stacks.

Tekman Education - Senior Backend Developer

2023-01-01 - 2023-06-01

Backend development in the CORE of educational platforms under hexagonal architecture and Domain-Driven Design in a Scrum environment with international team.

Esfera Médica - Senior Backend Developer / Architect

2020-01-01 - 2023-01-01

Design and implementation of the complete backend of a 4-microservice ecosystem for a medical business group. 56 models in Billing alone, async CFDI invoicing orchestration, centralized RBAC with 29 permission releases and 34 custom Nova components.

DR México - Backend Software Engineer

2018-01-01 - 2020-01-01

Backend development of nationwide mission-critical systems for government institutions. Hardware integration (biometrics, RFID), image processing and APIs for multi-site platforms.

Warriors LABS - Backend Developer / Project Leader

2016-01-01 - 2018-01-01

Development of the backend layer and distributed services of a white-label corporate security solution. Leadership of 6-developer team.

Telecomm - Intern Developer

2016-01-01 - 2016-06-01

Development and maintenance of the institutional IT inventory system backend.

TECHNICAL EXPERTISE

Languages

PHP

C# / .NET

JavaScript / TypeScript

C / C++

Backend frameworks

Laravel (6-12)

Laravel Nova

Laravel Sanctum

Symfony (2-5)

ASP.NET Core

.NET Framework 4.7/4.8

API Platform

Processing and queues

Laravel Queues / Jobs

Redis

Bus::chain (orchestration)

Event-Driven (Observers/Listeners)

Databases

MySQL

SQL Server

PostgreSQL

MeiliSearch

Redis

Integrations

CFDI 4.0 / SOAP / WSDL (Finkok PAC)

Payment processors (HSBC, AMEX, PROSA)

Pusher / WebSockets

SignalR (.NET)

Amazon S3

OpenAI API

Active Directory / SSO

DevOps and infrastructure

Docker

NGINX

Git / GitHub / Bitbucket

CI/CD (Bitbucket Pipelines, Laravel Forge)

Laravel Forge

Testing

PHPUnit

Laravel Dusk (E2E)

Factories / Seeders

Artificial Intelligence

GitHub Copilot

Cursor

ChatGPT (OpenAI)

Claude (Anthropic)

EDUCATION

Computer Engineering

Facultad de Estudios Superiores Aragón — UNAM

- 2015

Accounting (High School)

Colegio de Bachilleres del Estado de México

- 2010

CERTIFICATIONS

Scrum Master

Scrum Master Accredited Certification - 2019

Management Skills Development Diploma

Faculty of Engineering, UNAM - 2022

LANGUAGES

Spanish - Native

English - Intermediate-Advanced (fluent technical reading, written and verbal communication)
